

ENGAGING AFTER SCHOOL WORKSHOPS

Each hour-long class is a fun and educational LEGO-building adventure with Bricks 4 Kidz. We use age appropriate models for different levels of building skill.

This hands-on class explores STEAM concepts (Science, Technology, Engineering, Art, and Math) primarily using LEGO Bricks, in which children will develop problem-solving and critical-thinking skills in a fun and engaging way.

Even our youngest and newest students will learn how to make mechanical LEGO models that move and groove. As they advance in building skill, they'll also motorise their weekly model for even more learning fun!

TERM 4 - Air, Land & Sea

Melbourne Montessori School - Caulfield Campus

In Term 4

We will step aboard some exciting ways to get from here to there

Take to the sky in our Bricks 4 Kidz® helicopter model, race across the beach in an ingenious land sail, or zoom through the water on a jet ski! Students will learn what makes each machine unique and how it moves, exploring concepts such as buoyancy, propulsion, lift and g-forces! What other ways will you invent to travel through air, land and sea?

Dates: 16th Oct - 4th Dec

Duration: 8 Weeks

Day: Every Wednesday

Time: 3.15pm - 4.15pm

Cost: \$136
